JOSEPH CLINTON S

+91 7010189558 josephclintonsahaya@gmail.com linkedin.com/in/ joseph-clinton

SUMMARY

Motivated and detail-oriented aspiring MERN Stack Developer with a strong foundation in MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive web applications, RESTful APIs, and CRUD operations. Familiar with JavaScript, TypeScript, Git, and GitHub. Eager to apply technical knowledge, solve problems, and contribute to real-world full-stack development projects.

INTERSHIP / TRAINING

- Completed a **3-month** MERN Stack internship at **VDart**, gaining hands-on experience in full-stack project development.
- Completed a **3-month** online MERN Stack internship at **Noviteck**, developing practical skills in web application development.
- Currently undertaking a **3-month** online internship at **Axelero Solutions**, working on real-world full-stack development projects.

SKILLS

Frontend
- React.js, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS

Backend
- Node.js, Express.js, RESTful APIs

Databases
- MongoDB, MongoDB Atlas

Tools & Others
- Git, GitHub, Postman, Docker, npm, Agile/Scrum

ACHEIVEMENTS

- **Hackathon** Participation
- IEI Member, Kings College of Engineering

PROJECTS

1. **College ERP** – Library Management & Timetable System
   - Developed a MERN Stack application for library management and timetable scheduling.
   - Implemented CRUD operations for books, members, and timetable records.
   - Built RESTful APIs using Node.js, Express.js, MongoDB, and React.js.
2. **Audit Trail System**
   - Developed a MERN Stack application to track shipment activities and status changes.
   - Built RESTful APIs using Node.js, Express.js, and TypeScript.
   - Integrated MongoDB for data storage and Docker for database containerization.
3. **Forma AI** – AI-Powered Dynamic Form Engine
   - Integrated an LLM to extract structured data from user-provided narratives.
   - Developed schema-driven dynamic forms using React.js and JavaScript.
   - Built backend APIs and integrated MongoDB for form schema storage and retrieval.

CERTIFICATIONS

- **ICT** Academy : Machine learning with Tensorflow
- **INFOSYS**(**ICT** Academy)-Python Web Development
- **AWS** Academy learning for Natural Language Processing

EDUCATION

- **B.E - CSE (75%)** 2022- 2026
  Kings College of Engineering, Pudhukottai

JOSEPH CLINTON S

+91 7010189558 josephclintonsahaya@gmail.com linkedin.com/in/ joseph-clinton

SUMMARY

Aspiring .NET Developer with a Computer Science and strong foundation in **C#**, **ASP.NET Core**, **Entity Framework Core**, and **SQL Server**. Experienced in building **RESTful Web APIs**, designing scalable backend architectures, and integrating **AI/LLM** services. Passionate about developing intelligent knowledge extraction systems for scientific literature using modern .NET technologies and **Azure AI**.

.NET Internship / Training

uSIS Technologies | 3-months

- Assisted in developing web applications using **ASP.NET MVC.**
- Worked with **SQL Server** database queries and stored procedures.
- Participated in bug fixing and feature enhancements.

PROJECTS

Next-Generation Research Aid: Intelligent Knowledge Extraction from Scientific Literatur

- Built an AI-based system using **NLP** and transformer models to extract, summarize, and semantically search scientific literature, improving literature review efficiency by 60%.
- The .NET developer is the backbone of this project, responsible for building the entire backend infrastructure that enables intelligent knowledge extraction from research papers.
- Backend API Development for using Build **RESTful Web APIs, API Controllers, Clean Architecture, HTTP Handling**

SKILLS

- **Languages**
  - C# , SQL , CSS, HTML , JavaScript
- **.NET Core technologies**
  - .ASP.NET Core , Entity Framework Core
- **Databases**
  - SQL Server, MySQLs
- **Tools & Platformss**
  - Git , VS Code

CERTIFICATIONS

- **ICT** Academy : Machine learning with Tensorflow
- **INFOSYS**(**ICT** Academy)-Python Web Development
- **AWS** Academy learning for Natural Language Processing

EDUCATION

- **B .E - CSE (70%)** 2022- 2026
  KingsCollegeofEngineering , Pudhukottai

ACHEIVEMENTS

- **Hackathon** Participation
- IEI Member, Kings College of Engineering

REEGAN RAJASEKAR . A

+91 7094093096 areeganrajasekar@gmail.com reegan.is-a.dev linkedin.com/in/reeganrajasekar

SUMMARY

Full Stack Engineer with 3 years of experience in building secure, scalable web and mobile applications using .NET (C#), PHP, React, SQL Server, and MySQL. Strong experience in REST API development, database optimization, cloud deployment, and OWASP security practices. Proven ability to deliver end-to-end solutions from design to production with a focus on performance, security, and reliability.

EXPERIENCE

1 . SCION, Thanjavur
2024 - Present

- Developed and maintained secure backend services using .NET Core (C#), SQL Server, and Redis, improving system performance and reliability.
- Built responsive web applications using React, fully integrated with REST APIs and cloud services.
- Designed and deployed Azure cloud infrastructure, implementing CI/CD pipelines using Azure DevOps, reducing deployment time and manual errors.
- Implemented OWASP Top 10 security practices, including secure authentication, input validation, and API hardening.

2 . UBTIINC, Chennai
2023 - 2024

- Designed and developed a full ESG Dashboard and Employee Portal using .NET and SQL Server.
- Independently delivered an internal Employee Management Portal end-to-end, from development to production deployment.
- Optimized application performance and ensured secure data handling.

PROJECTS

1 . IoT-Based Smart Security & Locker Access Control System (Vsafe)

- Designed and developed a secure IoT-based smart access control application using .NET Core backend. Implemented real-time device communication, user authentication, and OWASP-compliant security practices.

2 . Employee Management & Access Portal

- Developed a secure internal Employee Management Portal from scratch to manage users, roles, access rights, and activity logs.

3 . ESG Analytics Dashboard

- Developed a data-driven ESG dashboard to visualize environmental, social, and governance metrics for internal stakeholders.

4 . Secure eCommerce Web Application

- Designed and developed a full-stack eCommerce application with secure user authentication, product management, cart and Admin Portal

SKILLS

- **Frontend**
  - React, Tailwind CSS, HTML5, CSS3, JavaScript, TypeScript
- **Backend**
  - .NET Core (C#), ASP.NET MVC, PHP, RESTful APIs
- **Databases**
  - SQL Server, MySQL, Redis
- **Security**
  - OWASP Top 10, Authentication & Authorization, Secure API Design
- **Cloud & DevOps**
  - Microsoft Azure (App Services, Azure SQL, Blob Storage), Azure DevOps, CI/CD Pipelines, Docker, Kubernets, Linux
- **Tools & Others**
  - Git, Firebase, Postman, Agile/Scrum

CERTIFICATIONS

- Fullstack Development - **ICT (IBM)**
- Full Stack JS - **SIRIUS (CDW)**
- Full Stack Development - **UDEMY**

EDUCATION

- **B.E - CSE (83%)** 2019 - 2023
  St.Joseph'sCollegeofEngg & Tech, Thanjavur.

AWARDS & RECOGNITION

1 . Best Employee of the Quarter – SCION

- Awarded for outstanding performance, system optimization, and delivering high-impact production features.

2 . Spotlight Award – UBTIINC

- Recognized for exceptional individual contribution to critical project delivery and performance improvements.
